

# Topline Questionnaire

## Pew Research Center Mobile Technology and Its Social Impact, 2018

### Methodological notes:

- Survey results are based on a national sample.
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Not all questions included in the Mobile Technology and Its Social Impact 2018 survey are presented in this topline. Omitted questions will be released in future reports.
- Trend data from past Global Attitudes surveys is included in this report. For more information on these data, please see the 2017 [reports](#) and [methodology](#).

	Q1. Now thinking about our economic situation, how would you describe the current economic situation in (survey country) — is it very good, somewhat good, somewhat bad, or very bad?

	Yes	No	DK/Refused	Total
Venezuela	87	12	0	100

## Methodology

About Pew Research Center's Mobile Technology and Its Social Impact Survey, 2018

Results for the survey are based on face-to-face interviews conducted under the direction of D3 Systems, Inc. The results are based on a national sample. General information about our international survey methodology is available [here](#).

<b>Country:</b>	Venezuela
<b>Year:</b>	2018
<b>Survey</b>	Mobile Technology and Its Social Impact
<b>Sample design:</b>	Multi-stage, area probability design. Primary sampling units (PSUs) are parishes stratified by region and three levels of access to basic services as defined by the 2011 Census: less than 90%, 90-95%, and 95+%. The number of effective PSUs is 255 (177 PSUs + 78 SSUs within 73 certainty PSUs). Individuals within households are selected using the last birthday method based on all 18+ people living in the household. Up to three attempts are made to complete the interview with the selected respondent.
<b>Mode:</b>	Face-to-face
<b>Languages:</b>	Spanish
<b>Fieldwork dates:</b>	Sept. 12 – Dec. 7, 2018
<b>Sample size:</b>	2,474
<b>Margin of error:</b>	2.2 percentage points
<b>Representative:</b>	Adult population 18 plus (excluding Amazonas, Delta Amacuro, Dependencias Federales and the southern part of both Apure and Bolivar)
<b>Primary vendor:</b>	D3 Systems, Inc.
<b>Weighting variables:</b>	Gender, age, education, region and probability of selection of respondent
<b>Design effects:</b>	1.28
