¹ The Wave 43 survey includes 1,038 responses from members of Ipsos's KnowledgePanel who participated in this survey in addition to regular ATP panelists. In order to analyze subgroups, the survey includes an [oversample](#) of black and Hispanic respondents. The survey also includes an oversample of Asian respondents, but because of small sample sizes and a reduction of precision due to weighting, estimates for Asians are not presented for questions that were asked of Form 1 or Form 2 only and for some filtered questions. The data are weighted to be representative of the U.S. adult population as a whole.

² The Asian sample in this survey was interviewed in English only.
