Pew Research Center
Mobile Technology and Its Social Impact Survey 2018
August 22, 2019 Release

Methodological notes:

- Results for the survey are based on face-to-face interviews conducted under the direction of D3 Systems, Inc. The results are based on national samples. More details about our international survey methodology and country-specific sample designs are [available here](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Not all questions included in the Mobile Technology and Its Social Impact Survey 2018 are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
