

**Pew Global Attitudes Project**  
**2012 Spring Survey Topline Results**  
**July 12, 2012 Release**

Methodological notes:

- Survey results are based on national samples except in China. For further details on sample designs, see Survey Methods section.
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers. When multiple responses are allowed, totals may add to more than 100%.
- Since 2007, the Global Attitudes Project has used an automated process to generate toplines. As a result, numbers may differ slightly from those published prior to 2007.
- Spring, 2011 survey in Pakistan was fielded before the death of Osama bin Laden (April 10 – April 26), while the Late Spring, 2011 survey was conducted afterwards (May 8 – May 15).
- Trends from India prior to 2011 are not shown because those results were based on less-representative samples of the population. Since 2011, the samples have been more representative of the Indian population.
- Trends from Brazil prior to 2010 are not shown because those results were based on a less-representative sample of the population. Since 2010, the samples have been more representative of the Brazilian population.
- Trends from Egypt in 2002 are not shown because those results were based on a less-representative sample of the population. Since 2006, the samples have been more representative of the Egyptian population.
- Not all questions included in the Spring 2012 survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
